The Harvard University Department of Statistics invites applications for a tenure-track professor for the 2021-2022 academic year. We seek strong candidates in any field of statistics and probability as well as in any interdisciplinary areas where innovative and principled use of statistics and/or probability is of vital importance. Candidates should have strong doctoral records and demonstrated teaching and research experience or the promise of achieving such. We particularly encourage application from historically underrepresented groups. The tenure-track professor will be responsible for teaching at the undergraduate and graduate levels.

The appointment is expected to begin on July 1, 2021. Doctorate or equivalent terminal degree in Statistics or a related discipline will be required by the start date.

Please apply through the ARiLeS portal at this link: [https://academicpositions.harvard.edu/postings/9888](https://academicpositions.harvard.edu/postings/9888).

*Application submission by January 5, 2021 will ensure consideration.*

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.
