The School of Population and Global Health of the Faculty of Medicine and Health Sciences is inviting applications for the position of Chair of the Department of Epidemiology, Biostatistics and Occupational Health: [http://www.mcgill.ca/epi-biostat-occh/](http://www.mcgill.ca/epi-biostat-occh/).

The Department of Epidemiology, Biostatistics and Occupational Health is one of three inaugural departments defining the new School of Population and Global Health. The Department has a tradition of excellence in population and clinical research spanning 57 years. Currently, the Department consists of 55 full-time academic staff members as well as over 170 associate and adjunct members. The collective research program is strongly linked with other basic, clinical and social science departments, as well as clinical research groups and institutions at the McGill-affiliated hospitals. The Department has eight highly active and in-demand graduate educational programs including a residency program, and currently supports a student population of 290 graduate and post-graduate trainees. Building on this foundation, the Department is well-positioned to provide continued leadership to an array of population and global health research, education and service challenges as part of the new School of Population and Global Health.

The successful applicant will have international stature in epidemiology, biostatistics or related research with proven administrative, organizational management and teaching skills. An outstanding track record and commitment to research excellence and leadership are expected. The successful candidate will articulate a compelling vision for the future of epidemiology and biostatistics as part of the new School of Population and Global Health at McGill. The ability to speak French will be considered an asset. The office of the successful candidate is located in Montreal, Quebec. Salary will be negotiable, according to qualifications and experience. This is a five-year appointment with the possibility of renewal for a second term. A tenure stream position at the Associate or Full Professor level may be available for the selected candidate.

The Department is proud to host a respectful, multi-disciplinary and inclusive work setting in its multiple areas of activity, which includes the training of a diverse group of students. A record of experience applying equity, diversity and inclusiveness competencies will be considered an asset.
Interested candidates should submit their application here: https://mcgill.wd3.myworkdayjobs.com/en-US/mcgill_careers/job/Purvis-Hall/Chair-of-the-McGill-University-Department-of-Epidemiology--Biostatistics-and-Occupational-Health_JR0000008916-1 within 30 days of publication of this advertisement. Interviews will be conducted online.

For information on how to use the online system, please refer to the: Guide for the online application system.

The following supporting documents are required:

- a cover letter and curriculum vitae
- statement of research and educational contributions (if including other documents, combine to make 1 pdf)
- the names and contact information of three referees

Date of publication: March 22, 2021

Use a personal email address when creating an account in Workday to submit your application. Do not use @mail.mcgill.ca or @mcgill.ca email accounts to apply.

McGill University is committed to equity and diversity within its community and values academic rigour and excellence. We welcome and encourage applications from racialized persons/visible minorities, women, Indigenous persons, persons with disabilities, ethnic minorities, and persons of minority sexual orientations and gender identities, as well as from all qualified candidates with the skills and knowledge to engage productively with diverse communities.

At McGill, research that reflects diverse intellectual traditions, methodologies, and modes of dissemination and translation is valued and encouraged. Candidates are invited to demonstrate their research impact both within and across academic disciplines and in other sectors, such as government, communities, or industry.

McGill further recognizes and fairly considers the impact of leaves (e.g., family care or health-related) that may contribute to career interruptions or slowdowns. Candidates are encouraged to signal any leave that affected productivity, or that may have had an effect on their career path. This information will be considered to ensure the equitable assessment of the candidate’s record.

McGill implements an employment equity program and encourages members of designated equity groups to self-identify. It further seeks to ensure the equitable treatment and full inclusion of persons with disabilities by striving for the implementation of universal design principles transversally, across all facets of the University community, and through accommodation policies and procedures. Persons with disabilities who anticipate needing accommodations for any part of the application process may contact, in confidence, this email or phone at 514-398-2477.

All qualified applicants are encouraged to apply; however, in accordance with Canadian immigration requirements, Canadians and permanent residents will be given priority.
