A three-years postdoc position in Biostatistics in the broad thematic area of statistical genomics is offered at the Oslo Centre for Biostatistics and Epidemiology (OCBE), University of Oslo, Norway.

The position is funded under the SCIENTIA FELLOWS program, a transnational research fellowship programme in the field of Health Life Sciences at the University of Oslo, funded by the EU Horizon 2020 under the Maria Skłodowska-Curie scheme.

**Hosts:** Valeria Vitelli (https://www.med.uio.no/imb/english/people/aca/valeriv/) and David Swanson (david.swanson@medisin.uio.no)

**Deadline for submission:** May 11th, 2021

**IMPORTANT! Deadline for contacting the hosts: April 11th, 2021**

**Call, detailed information and how to apply:** (thematic area: "biostatistics")  
https://www.med.uio.no/english/research/scientia-fellows/apply/

If you are interested in the position, please contact the hosts above by sending CV and links to your papers as soon as possible and before April 11th, 2021. You and your hosts will identify common research interests and discuss the concept of your research proposal. While you are responsible for the research proposal, you will discuss your application with the hosts, who will help you to write a good proposal. Finally, in order to apply for the position, you have to submit the research proposal (and other documents as specified in the call) by May 11th, 2021.

The position will be at the Oslo Centre for Biostatistics and Epidemiology (OCBE), Faculty of Medicine, University of Oslo (https://www.med.uio.no/imb/english/research/centres/ocbe/).

**Salary: 515 200 NOK/year (equivalent to roughly 60K USD/year or 50K EUR/year)**

**Eligibility:**

- You possess a PhD degree (at the latest by 1 July 2021) in statistics, biostatistics, mathematics, computer science or other related disciplines with a documented competence in statistics, biostatistics or mathematics.
- You have not been resident in Norway for more than 12 months in the last 3 years.

**Further background:**

The purpose of the three years postdoc is to produce scientific results of the highest quality, in collaboration with your host at the University of Oslo and its other partners. You will also be part of the University of Oslo’s career development programme designed for researchers at the beginning of their career, including our Health Innovator course which aims to provide researchers with tools and insight into how innovation can be put to work for the benefit of patients, the healthcare system and society. At completion of your three year term, your academic profile will be such that you can successfully apply to the best research positions worldwide.

A Fellow of the Scientia Fellows programme will be employed at the University of Oslo for three years. The place of work is the University of Oslo. The gross salary of a Fellow will amount to 515 200 NOK/year. Full health insurance and pension payments with the Norwegian pension fund will be covered by the university. As an employee in Norway you have several welfare benefits. In addition the university will support research costs (laptop, travel, courses etc) with 54 600 NOK per year. For further information related to moving and settling in Norway, please visit the website of the International Staff Mobility Office (https://www.uio.no/english/about/jobs/ismo/), which will also assist incoming fellows and their families with relocation to Oslo. For more information on the position, contact the hosts mentioned above.
