Job Title:
CPH Biostatistics Assistant or Associate Professor

Department:
Public Health | Division of Biostatistics

Tenure-track or tenured faculty (regardless of rank) - persons with the titles of associate professor, assistant professor and instructor who serve on appointments totaling 50% or more service to the university and who are eligible for tenure or who have obtained tenure. Duties and responsibilities are assigned in accordance with the workload guidelines laid out in the pattern of administration of each faculty member’s tenure initiation unit (TIU) and, as appropriate, regional campus; obligations will include research, service and/or teaching or clinical practice. These faculty will have earned doctorate or other terminal degree in the relevant field of study or possession of equivalent experience.

Additional Information:

The Ohio State University College of Public Health is searching for a tenure-track or tenured faculty member at the rank of Assistant or Associate in the Division of Biostatistics. The search committee is especially interested in candidates who, through their research, teaching, and/or service, will contribute to the diversity and excellence of the academic community.

We seek an outstanding individual with potential for excellence in research and teaching. All research areas will be considered. Areas of greatest interest to the division include but are not limited to causal inference, image analysis, infectious diseases, longitudinal data analysis, missing data, spatial modeling, and survey sampling. Candidates will be expected to develop their own program of funded research that aligns with the university’s strategic initiatives and to collaborate with existing faculty. Inclusive and effective teaching and student advising are also expected. Candidates will provide service and administration to the Division, College, University, and community. Women and members of minority groups are especially encouraged to apply.

Qualifications:

Applicants are expected to have a Ph.D. or other doctoral degree in biostatistics, statistics, or related discipline by the start of employment. Rank and salary will be determined by the candidate’s credentials.

About the Division:

The Division of Biostatistics includes 11 full-time faculty members who are engaged in funded methodological and interdisciplinary research as well as teaching graduate and undergraduate students. Faculty collaborate with researchers from various colleges, centers and institutes, including the Colleges of Medicine, Pharmacy, Nursing, and Dentistry, James Comprehensive Cancer Center, and the Institute for Population Research. Significant research interactions exist between the Division faculty and researchers from the Department of Biomedical Informatics, the Center for Biostatistics at Ohio State, and Nationwide Children’s Hospital located in downtown Columbus. The faculty co-administers and participates in an Interdisciplinary PhD program in Biostatistics with the Department of Statistics, which currently has about 25 students. The Division also administers the MS and MPH programs that specialize in
biostatistics and participates in the teaching of applied biostatistics courses to various graduate programs and the new, rapidly growing BS program in public health. Further information about the Division and faculty may be found at: http://cph.osu.edu/bio/.

The Ohio State University is committed to establishing a culturally and intellectually diverse environment, encouraging all members of our learning community to reach their full potential. We are responsive to dual-career families and single parents and strongly promote work-life balance to support our community members through a suite of institutionalized policies. We are an NSF Advance Institution and a member of the Ohio/Western Pennsylvania/West Virginia Higher Education Recruitment Consortium. The University is an Equal Opportunity, Affirmative Action Employer and is committed to a diverse workforce and encourages applications without regard to race, color, religion, sex, sexual orientation or identity, national origin, disability status, or protected veteran status.

About Columbus:

The Ohio State University campus is located in Columbus, the capital city of Ohio. Columbus is the center of a rapidly growing and diverse metropolitan area with a population of over 1.5 million. The area offers a wide range of affordable housing, many cultural and recreational opportunities, excellent schools, and a strong economy based on government as well as service, transportation, and technology industries (see http://liveworkplaycolumbus.com/). Columbus has consistently been rated as one of the Top U.S. cities for quality of life, and it was selected as one of the Top 10 cities for African Americans to live, work, and play by Black Enterprise magazine. Additional information about the Columbus area is available at http://www.columbus.org.

Application Instructions:

Please visit https://osu.wd1.myworkdayjobs.com/OSUCareers/job/Columbus-Campus/CPH-Biostatistics-Assistant-or-Associate-Professor_R13348-1 to apply. Applications will be reviewed as received. Applications will be accepted until the position is filled, but those received by May 31st, 2021 will receive priority consideration (starting date is negotiable). Applicants are asked to submit a cover letter including a research statement and a teaching statement, a curriculum vitae, and electronic copies of up to three recent publications. Finalists will be asked to supply letters of recommendation.
