Tenure-Track Assistant or Associate Professor of Statistics
North Carolina A&T State University

The Department of Mathematics and Statistics at North Carolina A&T State University invites applications for a 9-month, tenure-track assistant or associate professor in Statistics available in August 2022. The Department encourages persons from all areas of Statistics to apply, and seeks strong candidates with a Ph.D. in Statistics, Biostatistics or Data Science with a specialty one or more of the areas of biostatistics, causal inference and learning, multivariate statistics, computational statistics, and business data analytics. Experience and track record indicating excellent potential to conduct research, obtain extramural funding and advise students, and ability to teach undergraduate and graduate courses are required. Other desirable attributes include excellent oral and written communication skills and the ability to interact with an interdisciplinary and collaborative intellectual community. Postdoctoral research experience or equivalent industrial experience and strong statistical data analysis and programming skills are desirable. University teaching experience is a plus. The detailed posting of the position can be found at https://jobs.ncat.edu/postings/23027.

Applications will be reviewed beginning January 15, 2022, and the review will continue until the position is filled. Interested applicants must submit the following items via the job posting at https://jobs.ncat.edu/postings/23027: 1) electronic application for employment (resumes will not be accepted in lien of completing an electronic application); 2) letter of interest (cover letter); 3) current curriculum vitae; 4) legible copies of all undergraduate and graduate transcripts (upload a copy of each transcript under the degree name; original transcripts will be required if hired); 5) statement of teaching philosophy; and 6) statement of research interests and accomplishments.

About the Department of Mathematics and Statistics at North Carolina A&T State University: North Carolina A & T State University is a public, doctoral/research and 1890 land-grant university that enrolls over 13,000 students. The Department of Mathematics and Statistics is an academic unit within the College of Science and Technology, seeking to provide undergraduate and graduate students with an inviting environment that inspires them to become leaders in their fields and areas of expertise. The Department of Mathematics & Statistics offers degree programs in Pure Mathematics, Applied Mathematics, Statistics and Data Science, and Mathematics Secondary Education at the B.S. level, Applied Mathematics at the M.S. level, and a doctoral concentration in Data Science and Analytics within the multidisciplinary PhD program in Applied Science and Technology. The Department also offers two minor programs in Applied Mathematics and Mathematics Secondary Education, and an undergraduate certificate program in Data Science and Analytics, and it is a major contributor to an online graduate certificate program in Data Analytics offered by the Graduate College. In terms of student credit hours taught, it is, as befits a STEM oriented university, the largest department in the College of Science and Technology.
