Assistant or Associate Professor of Biostatistics

The Hollings Cancer Center and the Department of Public Health Sciences at the Medical University of South Carolina (MUSC) invite applications for Assistant or Associate Professor of Biostatistics. Positions are for biostatisticians affiliated with the Biostatistics Shared Resource within the Hollings Cancer Center with research interests in clinical and translational cancer research. A PhD in statistics, biostatistics, or related field at the time of appointment is required.

The department has a large and expanding program of collaborative and internal research. Positions will involve collaborative interactions with Hollings Cancer Center faculty with an emphasis on joint grant proposals, development of statistical methodology to advance cancer research, and the design of laboratory, clinical and epidemiologic studies. Applicants with methodologic research interests in early phase clinical trial design, causal inference, and bioinformatics (with an emphasis on high throughput sequencing) are encouraged to apply.

Founded in 1824, the Medical University of South Carolina is the state’s largest medical complex, has the state’s only National Cancer Institute-designated cancer center, and is the largest employer in the metropolitan Charleston area. MUSC ranks in the top quartile of domestic educational institutions in funding for research and is home to a Clinical and Translational Science Award. MUSC is located in Charleston, SC, a vibrant and diverse community renowned for its music, arts and culinary scene, with ample opportunities for coastal outdoor activities.

Interested applicants should send a cover letter describing qualifications, especially current and past collaborative experiences, curriculum vitae, and research and teaching statements to DPHS Search Committee c/o Elizabeth Hill (hille@musc.edu). Applicants must also apply on the MUSC Job Site at: https://careers.pageuppeople.com/756/cw/en-us/job/546736/univ-open-rank-public-health-sciences.

MUSC is committed to increasing the diversity of its faculty and encourages applications from individuals in groups that are underrepresented in the biomedical sciences. The posting will remain open until filled.

The Medical University of South Carolina is an Affirmative Action and Equal Opportunity Employer.
