**Assistant Professor Position at Oregon State University**

The Department of Statistics at Oregon State University (OSU) is looking to grow its faculty ranks through two tenure-track positions at the assistant professor level. We welcome applications, nominations and inquiries on this position. Please share this posting with your recent or soon to graduate Ph.D. students and with other interested folks. These positions have been posted to the ASA job posting sites and listservs, but we wanted to share further details about Oregon State University and the broader environment in which this position is situated.

Information about OSU’s College of Science, Department of Statistics and the position, can be found through this [College of Science and Statistics Department profile](https://jobs.oregonstate.edu/postings/112259).

OSU’s College of Science is deeply committed to upholding the values of anti-racism, diversity, justice and equity. Our Diversity Action Plan, “[Embedding Equity, Access & Inclusion](#)” informs our work to ensure all have equitable access to succeed in science, work to dismantle systems of oppression, embed equity in everything we do and create a climate of trust, understanding and inclusion.

The Department of Statistics is a vibrant transdisciplinary community engaged in high-quality research and education in statistics and statistical consulting. Current research interests of the department include sampling, genomics, high-dimensional data analysis, network analysis, non-parametrics, ecological and environmental statistics, biostatistics, statistical learning, Bayesian methodology, inference with dependent data, and statistical computing.

You can view the full job posting at [https://jobs.oregonstate.edu/postings/112259](https://jobs.oregonstate.edu/postings/112259). While the full consideration deadline is December 1, 2022, review of applications will continue until the positions are filled. For additional information, please contact: Lisa Madsen (Madsenl@oregonstate.edu).
